PORTFOLIO
[View Portfolio](#)

LOCATION
New York, NY

CORE COMPETENCIES

Data-Informed Design	Curriculum Eval. & Review
Learning Science	Faculty Consultation
Backward Design	Assessment Design
Accessibility & UDL	Project Management
Blended & Microlearning	SCORM/xAPI Publishing
Train-the-Trainer	AI-Embedded Learning

TOOLS & TECH

Authoring Storyline, Rise, Captivate, Camtasia
Design & Media Canva, Figma, Illustrator, Photoshop, Premiere
LMS Canvas, Coursera, Blackboard, Wisdom Tree, SCORM, xAPI
Technical HTML, CSS, JavaScript, React
Project Mgmt. Monday.com, Asana, Notion, Google Sheets
AI Tools Claude API, Synthesia, ChatGPT, Gemini

EDUCATION

Columbia University MA, Instructional Technology & Media	May 2026
University College London MA, Education (Literacy)	Sep 2024
China Jiliang University BA, Teaching Chinese to Speakers of Other Languages	Jun 2023

LANGUAGES

English · Fluent
Mandarin · Native
Japanese · Conversational

Learning designer for online higher education at the University of Illinois Urbana-Champaign's Gies College of Business, with an MA in Instructional Technology & Media from Columbia University. Four years designing curricula for university course platforms, public agencies, and EdTech: partnering with faculty and SMEs, grounding design in learning science and accessibility standards, and managing course production end to end. Designs and builds: shipped a working AI learning prototype as a React application on the Claude API.

PROFESSIONAL EXPERIENCE

University of Illinois Urbana-Champaign, Gies College of Business

Aug 2026 – Present

Associate Learning Designer

- Manage a nine-course portfolio across four graduate and undergraduate program lines (iMBA, iMSM, MSBAi, BADM), as lead designer on three courses and supporting designer on six.
- Run each build on an eight-week cycle with faculty teams of two to three instructors, scoping the work and developing learning outcomes, assessment strategies, and Canvas and Coursera sites to program templates.
- Shepherd courses through technical and content quality control to soft launch, then hand off to course management.
- Run accessibility remediation on assigned courses, evaluating current status, developing and executing remediation plans, validating outcomes, and documenting residual issues for the portfolio.
- Lead course closeout, reviewing end-of-course survey data and instructor observations to identify issues, then vetting and presenting a proposed revision plan to the instructional team.

NYC Department of Consumer and Worker Protection

Sept 2025 – Aug 2026

Curriculum Specialist (College Aide)

- Coordinated three rounds of curriculum review across 60+ lesson plans, 60+ facilitator guides, and learner materials for a multi-vendor youth financial education initiative.
- Applied action mapping and learning needs analysis to evaluate instructional alignment, equitable language, and trauma-informed, UDL-aligned practice, driving revisions that led to full curriculum approval.
- Facilitated project meetings with SMEs, vendor teams, and communications staff, documenting decisions and tracking revision status against a January 2026 citywide launch.
- Facilitated four Train-the-Trainer sessions and built onboarding materials grounded in learning science, preparing 15 Financial Educators to deliver the curriculum across 15 NYC schools and libraries.

Wisdom Tree

Jul 2022 – Oct 2023

Instructional Designer

- Designed and developed 60+ eLearning courses across 15+ subject areas for a national credit-course platform serving 3,000+ Chinese universities.
- Built courses end to end in Articulate Storyline and Captivate, owning storyboarding, scripting, branching scenario design, and SCORM packaging.
- Applied adult learning principles to curriculum design and assessment development for credit-bearing courses that transfer between partner institutions, reaching 20,000 learners.
- Ran iterative quality assurance across every release cycle, shipping with zero post-launch content errors, and used participation data to refine pacing, assessment difficulty, and content clarity.

World Without Borders

Apr 2022 – Nov 2023

Learning Designer (Part-time)

- Designed curricula and assessment materials for 100+ international learners across four countries, adapting instructional strategy to diverse cultural and linguistic contexts.
- Implemented a cloud-based content system that cut administrative workload by 30%.

ADDITIONAL EXPERIENCE

Game Research Lab, Columbia University

Apr 2025 – Jun 2026

Curriculum Developer & Game Co-Designer

- Co-designed **Ping!**, a K–2 cooperative game-based learning system built with Teachers College, Harlem CoLab, and Wellbotics, embedding social-emotional learning directly into game mechanics alongside early computational thinking and robotics concepts.
- Developed the curriculum framework and facilitator materials, aligning learning outcomes to CSTA and New York State computer science and social-emotional learning standards.
- Ran 10+ rounds of playtesting that reshaped core mechanics, replacing fixed emotion labels with intensity spectrums after testing showed guessing stalled play.

Mori AI (Capstone), Columbia University

Jan – May 2026

Learning Experience Designer & Developer

- Designed Mori, an AI learning system for children ages 6 to 7, building a six-stage framework (collect, cluster, connect, narrate, visualize, retrieve) grounded in Piaget's developmental theory and retrieval-practice research.
- Shipped a working React prototype on a three-person team over three months, owning the instructional framework and front end, and demonstrated it to 100+ peers with user testing.

Entrepreneurs of Tomorrow

Aug 2025 – Jan 2026

Learning & Development Designer

- Conducted job and task analyses with department SMEs and a research team, defining measurable learning objectives across onboarding, professional development, and skills training for 40 employees.
- Designed a blended solution set spanning instructor-led sessions, eLearning modules, onboarding courses, and job aids, maintaining the development schedule and running project check-ins to keep the rollout on timeline.

PROJXON

May – Sept 2025

Learning & Development Designer

- Designed a 24-week internship curriculum in Canvas LMS across 12 modules, structuring a progressive path from onboarding through skill building to client-facing work.
- Owned the build schedule and milestone delivery dates, and delivered virtual training to 100 learners.
